# SCHEDULE C: Management Discussion;

## MANAGEMENT DISCUSSION AND ANALYSIS FOR THE QUARTER ENDED OCTOBER 31<sup>ST</sup> 2003

### Description of Business

The Company has two active resource projects, The Bullmoose Gold Property in the N.W.T, and the Wavy Lake Gas Prospect in Central Alberta. It also has one Investment, which is for sale.

## Results of Operations

During the period under review ending October 31, 2003 we report that the mining properties (comprising a Mineral Lease and equity interest in the Bullmoose Mine, a former Gold producer were maintained in good standing and the lease payment for 2003 has been made) the properties (mineral lease) are held in a wholly owned N.W.T. Subsidiary (Bullmoose Mines Ltd), and have been written down to a nominal value of \$ 25,000). They will be maintained in good standing with minimal expenditures, until such time as the gold price has risen to the point at which additional expenditures are warranted.

The Wavy Lake Gas project requires additional funding to complete a small seismic project to isolate a drill target, we are currently in discussion with an Alberta Firm to act as operator for us on this project, and are working to attract financial partners to fund the project.

The investment in Visiosonic is offered for sale and will be disposed of as soon as possible, during the period the investment in Net3f was sold.

### Financial Information

The un-audited financial statements as at October 31<sup>st</sup> 2003 attached to Form 51-901F Schedule "A" provide full and complete details of expenditures on administration, deferred expense and property costs, of the Company for the quarter ended October 31<sup>st</sup> 2003 and year to date (with comparative figures for 2002). The Company reported a net loss of CDN \$ 27,950 for the quarter ended October 31<sup>st</sup> 2003, compared to a net loss of CDN \$ 85,272 for the same period in 2002. Working capital deficit at October 31<sup>st</sup> 2003 was CDN \$ 48,320, which is insufficient to meet the costs of acquiring additional resource assets, or to develop existing resource properties. It will therefore be necessary to generate additional funds through the issue of additional capital securities or borrowings sufficient to meet current and future obligations.

Discussions are ongoing with potential investors to raise sufficient capital to fund current projects and ongoing operations.

#### Investments

No additional investments have been or will be made, and the remaining investment will be disposed of as soon as practical.

Investor communication and Public Relations

During the quarter the Company incurred costs relating to the preparation and dissemination of Quarterly and Annual Reports and other shareholder information. The Company does not have an investor relation's contract at this time.

The Company and Hughes Maritime Corp commenced legal action against Noram Relations Group Corporation (NRGC) in February 2001 and have an B.C. Supreme Court injunction preventing the transfer of 200,000 shares of the Company, the Company's claim is that NRGC filed a false affidavit claiming the shares had been lost, and as a result illegally obtained a duplicate certificate for 200,000 shares.
